Going on safari is also possible in the Kruger Park area. If you would like to include a trip to the Kruger while you're coming to South Africa please note that our winter is high season for that area and we recommend you start planning your trip. The Greater Kruger area is a malaria area and you'll need to take medication. If you would like to Visit Cape Town and the Garden Route (Malaria free) while you're in South Africa we recommend you start planning your trip in the next few months.
